

Weaving Your Crown (1)

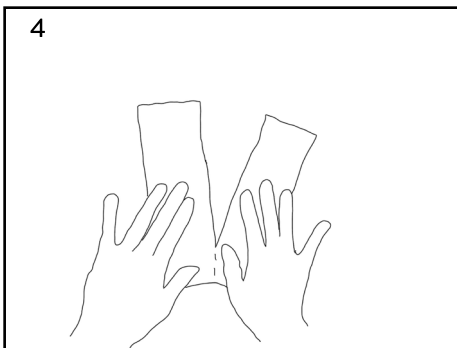

1
Get a piece of paper that is about 8.5 inches wide and 11 inches long.

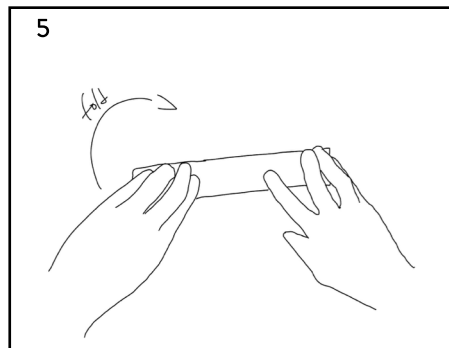

2
Fold that piece of paper in half, lengthwise, running your fingernail along the folded edge.

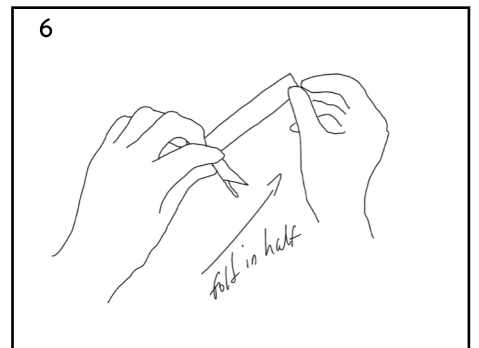

3
Open the paper back up.

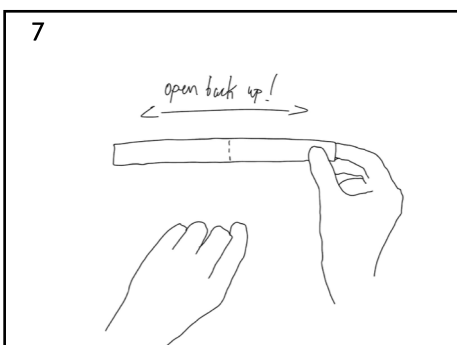

4
Tear the paper in half at the crease line. Now you have two pieces of paper.

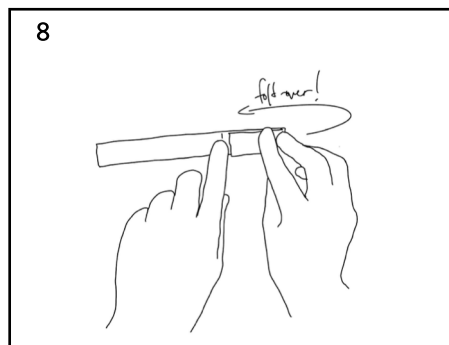

5
Take one of the pieces of paper and fold it length-wise. Fold it length-wise again.

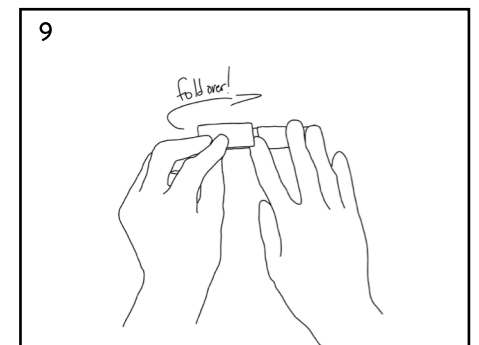

6
Fold your long, skinny paper in half to create a center crease. Run your fingernail along the folded edge.

7
Open the paper back up with the indent of the crease facing up. The folded paper should make a slight V shape and not a slight A shape.

8
Take the right side and fold it into the center crease.

9
Take the left side and fold it into the center crease.
